

HAZARD COMMUNICATION PROGRAM

- A. Objective: To protect the safety and health of our employees, the job site, general contractor, its employees all other trades present and the Owner.
1. As a company we intend to provide information about hazardous chemicals and other hazardous substances needed to perform the scope of our contract via our Hazard Communication Program including container labeling, Safety Data Sheets and training.
 2. This written Hazard Communication Program applies to all operations, which may expose employees to hazardous substances as a result of normal work conditions or as the result of a reasonably foreseeable emergency.
 3. Onsite personnel are provided with information and training on the Hazard Communication Program. New employees and those changing work assignments are given training as they arrive on site or before commencing the new assignment.
 4. In an effort to save resources, the written Hazard Communication Program is available upon request as well as accessible online on our website, www.Encoremech.com.
